### **City of San Diego 2004 Curbside Recycling Collection Calendars Now Available Online**

**SAN DIEGO, CA** — The City of San Diego now features the 2004 Curbside Recycling Collection calendar online at the Environmental Services Department (ESD) website. Twenty-four hours a day, city of San Diego residents can find out their recycling collection days – and view and print a color calendar - by visiting the department website at <http://interapp1.sannet.gov/econtainer/control/searchaddressinfo> and entering their address and zip code.

“With the City’s current budget cut backs, we are making every effort to deliver quality customer service while carefully evaluating our expenditures,” said Richard L. Hays, director of the Environmental Services Department. “Before we move forward with producing and mailing our 2004 curbside recycling calendars to our more than 270,000 customers, we are looking at ways to make it more cost effective. For now, residents can access information on their day of recycling collection by going to our website or calling our department’s customer service representatives.”

In addition, by viewing the ESD’s website and 2004 Curbside Recycling Calendar, residents can learn the types of City collection services provided to their address, find out what can and cannot be recycled in their blue recycling bin and learn the City of San Diego recognized holidays when trash, recycling and yard waste collection are delayed by one day. Residents without internet access or who cannot print the electronic version of their calendar can request a paper copy by calling ESD’s Customer Service at (858) 694-7000.

For general information on curbside recycling collection or the Environmental Services Department’s programs, please call ESD’s Customer Service or visit the department’s web site at <http://www.sandiego.gov/environmental-services/>.
